Subject Re: SDS

Sharon,
Thank you for your comment. I will make sure it is incorporated into our process.

Best,
Kara

I am a resident of Pueblo West. After reading articles in the Rocky Mountain News and The Pueblo Chieftain and hearing comments from the Sierra Club regarding the SDS I felt that I needed to comment. Starting the pipeline at the dam means it will need to go through a State Park, Pueblo West and Pueblo. Starting the pipeline at the confluence of Fountain Creek and the Arkansas River would be much closer to I-25. Having the pipeline at that location would also encourage CO SPGS to stop polluting Fountain Creek. Starting the pipeline at the confluence would be a much more ""NEIGHBORLY"" choice.
