Subject Re: EC-1300 ENV-6.00

I passed your email along to my SDS consultant and my contact at Colorado Springs Utilities. One of them will get in touch with you.

My husband and I bought 5 acres in Fremont County on the Arkansas River in August of 2007. We are currently working on house plans. At that time, I was not aware that the Southern Delivery System could impact our property. At a recent water meeting, it was implied that the pipe could go within a couple of hundred feet of our land. I've found maps on the internet for the "No Action Plan" and for Plan #7, but they do not clearly show the proposed location of the water pipe nor the pumping stations.

Our land is 257 County Road 119 Florence Colorado 81226 (lot 168A of Ullom LLA). Can you direct me to information, or to a person with the information, to help me understand the possible impact of the SDS on us.

Thank you,
Becky Andrews
