Subject Re: SDS Return Flow

Cameron,
Thanks for your comment. I'll make sure it is incorporated into the process. See you Wednesday!

Best,
Kara

[Kara Lamb](#),

[In the Pueblo Chieftain, on March 23rd, there was an article called "Recipe for a pipeline". I strongly oppose Colorado Springs return flow above Lake Pueblo. Colorado Springs has shown that they can not keep the water clean in the Fountain River and I do not expect them to keep up with regulations on any return flow. Pueblo is a wonderful city that has received little respect from the bigger city of Colorado Springs. They want their water anyway they can get it at the cheapest cost. Please do not consider Alternative 3 or 4 in the SDS list of seven options. I know Colorado Springs would contaminate us somehow. Look at what is happening to Alamosa! Please help us here in Pueblo! We do not want to be at the mercy of a bully! Hopefully I will see you on April 2nd.](#)

Thank you,

[Cameron Phillips](#) 😊
