Subject Re: SDS Comment - Build Preferred Option

Hi Mark,
Your comments have been added to the SDS DEIS process. Thank you for submitting them.

Best,
Kara

Ms. Lamb,

Having lived in the lower Arkansas Valley for 30 years (La Junta and Rocky Ford) and now living in Colorado Springs, I ask that the Bureau of Reclamation approve the preferred pipeline option coming directly from Pueblo Reservoir. Having read the draft EIS, I've come to the conclusion that the preferred option would have the least environmental impact, would provide safe drinking water to Colorado Springs, and would maximize the community's water rights and financial investments El Paso County has made in the Fry-Ark project over many years.

Again, I believe the preferred pipeline option should be built. It's the most responsible, cost-effective option for delivering water to Colorado Springs and other partner communities. It would also have a positive benefit to the entire region.

Thank you for your consideration.
