Managing Water in the West

## We Invite Your Comments!

### Southern Delivery System Draft Environmental Impact Statement

Name*	W Aren JDiodoslo JR	Date	4/2/08
Company /Organization			
Street Address	P.O. Box 4159		
City, State, Zip	Pueblo Co 81003		
E-mail	Jossoppie@ad.com		

\* Our practice is to make comments, including names and home addresses of respondents, available for public review. Individual respondents may request that we withhold their home address from public disclosure, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold a respondent's identity from public disclosure, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public disclosure in their entirety.

Comments are considered substantive if they:

- Question, with reasonable basis, the accuracy of the information in the document
- Question, with reasonable basis, the adequacy of the environmental analysis
- Present reasonable alternatives other than those presented in the Environmental Impact Statement
- Cause changes or revisions in the alternatives
- Provide new or additional information relevant to the analysis

Would like your name and address withheld from public disclosure\*? YES NO

Comments: I prefer Alternative 6 because it focuses Colorado Springs to take the water they send down to Pueblo hopefully giving them a extra incentive to send us the best water quality they can. My concern is the sewage spills the Springs sends to other cities (over 90 in 2 years) to cities & people down stream.
