Managing Water in the West

**We Invite Your Comments!**

## Southern Delivery System Draft Environmental Impact Statement

Name*	Jay Zarr	Date	4/2/08
Company/Organization	Greenway Nature Center		
Street Address	1643 W. Camino Pablo		
City, State, Zip	Pueblo West Colo 81007		
E-mail	ajla111@msn.com		

\* Our practice is to make comments, including names and home addresses of respondents, available for public review. Individual respondents may request that we withhold their home address from public disclosure, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold a respondent's identity from public disclosure, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public disclosure in their entirety.

Comments are considered substantive if they:

- Question, with reasonable basis, the accuracy of the information in the document
- Question, with reasonable basis, the adequacy of the environmental analysis
- Present reasonable alternatives other than those presented in the Environmental Impact Statement
- Cause changes or revisions in the alternatives
- Provide new or additional information relevant to the analysis

Would like your name and address withheld from public disclosure? **YES**  **NO**

**Comments:** My suggestion is #6 for I make the best case environmentally for the entire proposal. It will require C.S. to be more aware of how the H<sub>2</sub>O coming down the Fountain treated creates better H<sub>2</sub>O quality. It will also increase their yield of H<sub>2</sub>O which is what the "gold" standard is and will lower the cost overall in the long run. #6 also allows the downstream user not to have the major investment in their treatment plants. Also for Recreation thru Pueblo this will be the one most likely to keep CFS high

*Please continue on reverse side*

U.S. Department of the Interior  
Bureau of Reclamation

**Comments (continued):**

enough for fishing & boating.

# 6 !!! is the only fair alternative.

***Thank you for your comments***
