Managing Water in the West

We Invite Your Comments!

Southern Delivery System Draft Environmental Impact Statement

Name*	JANE GREEN	Date	4/2/08
Company /Organization			
Street Address	12680 Old Pueblo Rd		
City, State, Zip	Fountain CO 80817		
E-mail			

* Our practice is to make comments, including names and home addresses of respondents, available for public review. Individual respondents may request that we withhold their home address from public disclosure, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold a respondent's identity from public disclosure, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public disclosure in their entirety.

Comments are considered substantive if they:

- Question, with reasonable basis, the accuracy of the information in the document
- Question, with reasonable basis, the adequacy of the environmental analysis
- Present reasonable alternatives other than those presented in the Environmental Impact Statement
- Cause changes or revisions in the alternatives
- Provide new or additional information relevant to the analysis

Would like your name and address withheld from public disclosure*? YES NO

Comments: A lot of study, & time and expense has been done to have all these displays. I would like to submit that all properties south of Colo. Springs city limit have substantial property loss and adverse effect due to the speed, volume, sediment that will eventually be drained in Mountain Creek. I believe the S.D.S. should not continue until all the adverse effect to all properties are addressed to the satisfaction of entities from individual properties to the State, Federal, and National laws for clean water, environmental, safety and quality of life is preserved to the best it can be.

Please continue on reverse side

over please

U.S. Department of the Interior
Bureau of Reclamation

Comments (continued):

The alternative of #7 and #6 would be the least of all damages to our lives along Fountain Creek. Over the long term all water will drain into Str. Creek at some point and cost everyone south of Colo. Springs city limit substantial concern and property devaluation. The Str. going faster and deeper and wider now, today, than ever before will only increase. How can this be addressed?? Not to mention a faster, deeper wider Fountain Creek may drain shallow domestic wells into the flow!! Please be thoughtful and conscientious in determinations of all of us in your statement.

Thank you for your comments

Please send any additional comments to the mailing address, e-mail address, or facsimile number below. All comments must be received by **April 29, 2008**.
