

17 And how Colorado Springs could get that done is  
18 beyond my idea of being able to fathom that.

19 I think they are down here trying to  
20 take our water away and giving us crappy water  
21 in return.

1 ORAL STATEMENT OF FRED FREIDENBERGER

2 MR. FRIEDENBERGER: I have been reading  
3 all the reports and all the stories in the  
4 paper. And it's just apparent to me that  
5 everybody thinks that the best place to pick up  
6 the water for Colorado Springs is at the foot of  
7 Fountain River. But it just looks to me like  
8 the federal agencies are trying to work it  
9 around so that they can justify taking it out of  
10 Pueblo dam. That is basically what I think.
