

Bureau of Reclamation
1056 W. County Road 18E
Loveland, Colorado

To Whom it may concern:

I, as a property owner in both El Paso and Pueblo Counties in Colorado, feel qualified to speak up on the "Pipeline" Colo. Spr. wants. Colorado Springs continues to annex into their city limits acreage (lots of it) that they cannot provide water for...

I heartily object to the idea of a pipeline from Pueblo Dam. It is absolutely appalling for them to send their filth to the Arkansas Valley. If the need the water so badly, let them clean and re-use Fountain Creek. If there must be (even tho I disagree) a pipeline let it be at the confluence of Fountain Creek & the Arkansas River. Take a trip and look at the water at that point (I did, and it shook me up!)

Sincerely,

Jane Alvis
