TO: KARA  
LAMB  
NOV.3,2008

REFERENCE: SOUTHERN DELIVERY SYSTEM  
THE BUREAU OF RECLAMATION IS REVISING  
THE ENVIRONMENTAL  
IMPACT STATEMENT SOON. I WOULD LIKE TO  
STATE THE IDEA OF COLORADO SPRINGS  
EXTRACTING WATER AFTER THE FOUNTAIN  
CREEK'S WATER FLOW JOINS THE ARKANSAS  
RIVER JUST SOUTH AND EAST OF PUEBLO.

THE ENVIRONMENTAL IMPACT OF THE SDS  
OR " ADDITIONAL WATER BEING DISCHARGED  
" FROM COLORADO SPRINGS AND  
SURROUNDING AREAS IN THE NATURAL  
WATER BASIN, THE FOUNTAIN CREEK, WILL  
DEFINITELY CAUSE MORE EROSION,  
SEDIMENT DEPOSITS, FLOODING

## DESTRUCTION, AND WATER QUALITY.

THERE IS NO DOUBT THAT THE WATER IS NECESSARY FOR COLORADO SPRINGS AND AREA TO NEED MORE WATER AND MOST OF US WISH FOR MORE COLORADOANS TO LIVE IN A PLACE WHERE

WATER IS AVAILABLE. HOWEVER, MONEY (\$\$\$\$\$) AND POLITICAL POWERS EXIST AND THE POSSIBILITY OF GIVING THE SDS AN "OK" WITHOUT SOME GUARANTEE OF PROTECTING THE CITIZENS OF THE FOUNTAIN CREEK BASIN AND LOWER ARKANSAS RIVER VALLEY IS HARD TO PROVIDE. TO ACCEPT THE SDS ENVIRONMENTAL IMPACT ON THE AREAS INVOLVED, THERE NEEDS TO BE A "TRUST" THAT ALL ENVIRONMENTAL PROBLEMS BE GIVEN HIGH PRIORITIES AND CORRECTED QUICKLY. ONE WAY TO PROVIDE THIS ACTION WILL BE TO HAVE THE TRANSPORTATION SITE OF THE WATER FROM AN AREA THAT WILL **DICTATE THE CARE OF THE WATER FOR**

**ALL USES.....DRINKING, FARMING, RANCHING,  
PRESERVING SOIL, PREVENTING FLOODING,  
AND SEDIMENTATION TRAVEL.**

**SINCERELY,  
FRANK B. CHILDRESS  
2530 GREENWOOD ST.  
PUEBLO, COLORADO 81003**
